

# MX SPECIFICATION The widest range of performance rigid hull inflatables; it's your choice...

## MX 320

For the yachtsman demanding a go-fast tender with all the styling and panache of the MX line in a small and light weight package. Add a steering system and 2 person seat for a stable runabout or a motorcycle seat for a personal water vehicle. It features a two part fiberglass hull, non-skid deck, lifting rings. And, due to its short stern cones a very large interior.

## MX 360

Ideal tender - sport - boat for yachts in the 40' range. Add a steering system and seating, and you've got the smallest waterski tender in the harbor. It features a very deep «V», a very roomy deck, large tube diameters and a bow dodger. Available in gray or white.

## MX 570

The MX 570 have entered many European racing competitions establishing a remarkable track record of successes. But even for non-competitive users the MX 570 has gained respect from high performance offshore boaters. It features many built-in lockers and cushions for comfortable seating, a navigation arch, dual consoles, twin stainless steel fuel tanks and more.

<b>MX 570 R.I.B.</b>	
Out. length	18'8" (5,70 mt)

## MX 650

New for this year: The «flag ship» of the fleet. Built in the same philosophy of the 570 but with a single center console and even more room inside. Includes such amenities as a flip up table, seats and cushions, a sun bathing deck and navigation arch. The press and the industry has eagerly awaited the MX 650's debut.
